PROPOSED FINDINGS

In preparing findings of fact to support a Zoning Map Amendment decision, the following findings shall be addressed except when alternatives are set forth or where a required finding clearly does not apply to the current proposal.

Explain in detail, using extra sheets as needed, how the proposed zone change complies with the following required findings:

1. Explain how the proposed zoning map amendment is in conformance with statewide planning goals and guidelines.

2. Explain how the proposed zoning map amendment is in conformance with the Acknowledged Comprehensive Plan.

3. As applicant, you must explain how there has been a mistake or error in the original zone designation or a change in physical, social or market conditions generally affecting the area, which makes this proposed zone change appropriate.

3. As applicant, you must show a public need is demonstrated for this zoning at this location and is not the granting of a special privilege for a single property or small group of properties.

5. Explain how the property affected by the change, if approved, is adequate in size and shape to facilitate its use and development as permitted under the new zoning classification.

6. Explain how the property affected by the proposed change of zone is properly related to streets and other public facilities and with services adequate to meet the demands of the uses allowed in the new zone. This shall explain how this proposal will not absorb a disproportionate share of public facilities, utilities and general assets.

7. Explain how the proposed change in zoning will not result in adverse effects upon surrounding properties or surrounding uses from dust, noise, vibration, odor, heat, glare, lighting, or discharges into the air, water or land.

10B-05-15 BURDEN, CRITERIA OF PROOF.

1. The proponent of proposals shall have the burden of proving the justification of the request. The greater the impact of the request on an area, the greater is the burden upon the proponent.
2. The requested proposal must be supported by proof that it conforms to all applicable standards and criteria of the OMC. The Planning Official may require that proponents submit written evidence, facts and/or written findings substantiating such conformance, as part of the application.

CHAPTER 10B-20 QUASI-JUDICIAL ZONING MAP AMENDMENT

10B-20-05 PURPOSE, AUTHORITY. The quasi-judicial zoning map amendment procedures are designed and authorized to adjust zone boundaries and create new zoning classifications on the official zoning map within areas on the land use plan indicated for the uses allowed by the map change. Such changes shall be in conformity with the land use goals of the state. The decision of the Commission shall be the final decision of the City unless an appeal is filed as authorized by this Title.

10B-20-25 HEARING DECISION. The Commission shall hold a public hearing on the action and shall approve, deny, or modify the proposed zoning map amendment and shall make findings as appropriate to support the decision. The Planning Director shall notify the applicant of the decision of the Commission and notify any person appearing at the hearing in person, if they are not present when the final decision is rendered, or if the person has appeared in writing. During the hearing, persons appearing shall be advised that they must testify in favor of or in opposition to the action to gain standing to appeal the Commission's decision to the Council. Persons testifying shall be advised that they must address one or more of the criteria or required findings set forth in this Title for quasi-judicial zoning map amendment decisions in order to establish standing to appeal the final local decision to the Oregon Land Use Board of Appeals.

10B-20-30 REQUIRED FINDINGS, DECISION CRITERIA. In preparing findings to support a quasi-judicial zoning map amendment decision, the following findings shall be addressed except when alternatives are set forth or where a required findings clearly does not apply to the current action:

3. The applicant has demonstrated a mistake or error in the original zone designation or the applicant has demonstrated a change in physical, social or market conditions generally affecting the area which make the proposed change appropriate.
4. A public need is demonstrated for this zoning at this location and is not the granting of a special privilege for a single property or small group of properties.
5. The property affected by the change is adequate in size and shape to facilitate its use and development as permitted under the new zoning classification.
6. The property affected by the proposed change of zone is properly related to streets and public facilities and with services adequate to meet the demands of the uses allowed in the new zone.

The proposed zoning map change will not result in adverse effects upon surrounding properties or surrounding uses from dust, noise, vibration, odor, heat, glare, lighting, or discharges into the air, water or land.
